

## **Assurance Provenance Fixture**

Fixture centroid evidence states that replayable evidence must bind exact source bytes.

Repeated locator sentence: evidence must remain at the recorded occurrence.

The cross-page phrase begins with deterministic evidence crosses the

page boundary without losing its locator.

Ligature test: efficient affinity office fixture.

Fixture argument evidence states that rationale records why a member is included or omitted.

Repeated locator sentence: evidence must remain at the recorded occurrence.

Final page confirms the synthetic fixture is self-authored.
